How to add an icon to your home screen from CPS web

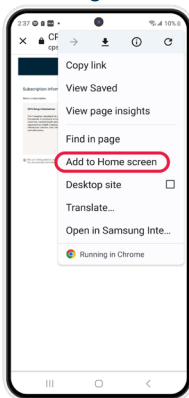

iPhone

1. Go to cps.pharmacists.ca/login
 2. Enter your credentials to log in
 3. Tap in the menu bar. 
 4. Scroll down the list of options, then tap Add to Home Screen.
 5. If you don't see Add to Home Screen, you can add it. Scroll down to the bottom of the list, tap Edit Actions, then tap  Add to Home Screen.
- The icon appears only on the device where you add it.

Android

1. Go to cps.pharmacists.ca/login
2. Enter your credentials to log in
3. Then drop down the menu by tapping the screen's 3-dot icon at the top right-hand corner.
4. Select 'Add to Home Screen'

CPS FREQUENTLY ASKED QUESTIONS

How do I order CPS Full Access?

- i. Visit pharmacists.ca/OMA
- ii. Click "Log in/Register" at the top right corner. Enter your login credentials. If you do not have an account, create one by selecting "Not yet registered" and fill in the appropriate information to create your profile. An email will be sent to your inbox to set your pharmacists.ca password which will enable you to make your purchase.
- iii. Continue by selecting "products and services" and proceed to "CPS subscriptions."
- iv. Select your preferred subscription (CPS Full Access is the best value) and add the item to your cart, view cart and enter the coupon code (from the OMA website/Member Advantages) in the box under the total and proceed to checkout.
- v. Complete the payment information
- vi. Once the order is complete, you will receive an email receipt within 5 minutes and an email to set your CPS subscription credentials
- vii. Access CPS immediately!

What are the differences between CPS: Full Access and CPS: Drug Information?

CPS: Drug Information is the Canadian standard for drug monographs, containing thousands of products including monographs for drugs, vaccines, natural health products and medical devices, approved by Health Canada. It includes Lexi-Interact drug interaction checker and critical updates such as warnings and advisories.

CPS: Full Access includes all of the content and tools available with CPS: Drug Information as well as the most current, evidence-based therapeutic information and non-prescription therapy for hundreds of common conditions, including assessment and treatment algorithms, pharmacologic therapy options and drug tables, and information for the patients handouts and infographics.

How can I access the full features and functions of CPS on my mobile device?

The best way to access all features and functions of CPS on your mobile device is to create a shortcut to the CPS web version on your mobile device. This allows you to get the following information and tools that are not currently available on the CPS mobile app: products for minor ailments, patient handouts and infographics, Clin-Info, patient medication information, drugshortages.ca linked from monographs, Lexi-Interact, a pill identifier tool and a Clin-Info drug-food interactions tool.

Why can't I download the app to my mobile device?

There could be several reasons why you are unable to download the CPS mobile app. These include compatibility issues with your device or operating system, insufficient storage space on your device, or connectivity issues.

Alternatively, you can easily access your CPS online subscription by creating a shortcut of the CPS web version on your mobile device. See instructions on the left.

How do I change/reset my password?

If you have forgotten or would like to change your password, go to the login page and click on **"Forgot Password."** You will receive an email from CPhA and from there, follow the prompts to change your password.

How do I update my account information?

To modify your account information, log in to your shop.pharmacists.ca account. Once you are logged in, click on the person icon found at the top right corner (next to your name). From there, select **"Profile"** to modify your personal information.

How do I contact customer support?

Our Client Experience Team is available Monday-Friday from 8:30 am–4:30 pm ET
1-800-917-9489 or (613) 523-7877
